Create a direct descendants GEDCOM file using RootsMagic Essentials (free version)

Open RootsMagic Essentials. Open the desired RootsMagic file (*.rmgc) if it did not automatically open. To begin the export, click File in the menu and select Export	Welcome to RootsMagic X Welcome to RootsMagic Please select the version of the software you wish to use Image: RootsMagic Essentials - Free Version RootsMagic Essentials - Free Version RootsMagic Essentials is a free version of the software that offers many core features found in the full RootsMagic program. You may purchase the full version at any time. Image: RootsMagic 7 Full Version You can purchase RootsMagic 7 Full Version You can purchase RootsMagic 7 - Full Registered Version If you have already purchased this program, you need to enter your registration information to unlock the full version.
In the "People to export" dropdown list, select "Select from list"	GEDCOM Export
In the Select People dialog box, find and select the distant ancestor from whom you want to export all descendants. In this example, Timothy Day has been selected. It will only be his descendants that will be exported.
